MAYES PROPOSED AMENDMENT # 1

DATE PREPARED: Dec. 10, 2008, 10 a.m.

COMPANY: Perkins Mountain Water Company AGENDA ITEM NO. U-23

DOCKET NO. SW-20379A-05-0489; W-20380A-05-0490

OPEN MEETING DATE: December 16-19, 2008

Page 24, line 5, INSERT: "Evidence in the record demonstrates that concern exists regarding water availability in the aquifers that underlie this proposed CC&N. While the Company has voluntarily agreed to implement more Best Management Practices (BMP's) than would be required by the Arizona Department of Water Resources (ADWR does not require any BMP's to be adopted by water systems outside of an Active Management Area) we are concerned that the BMP's that have been chosen by the Company appear to come largely out of the education and outreach category of BMP's. Staff testified that to achieve maximum water conservation, BMP's should be a mix of both education and actual physical water conservation measures. We believe that this Company should adopt more than 6 BMP's, and that those BMP's should be a mixture of education and physical water conservation measures. Therefore, we will require that PMWC adopt 10 BMP's as outlined in ADWR's Modified Non Per-Capita Conservation Program, and file those BMP's in Docket Control no later than March 1, 2009, for Commission consideration. PMWC should be required to adopt 10 more BMP's than would be required by ADWR if PMWC was in an Active Management Area."

Page 27, line 2, INSERT NEW ORDERING PARAGRAPHS:

"IT IS FURTHER ORDERED that PMWC shall adopt at least 10 Best Management Practices (as outlined in ADWR's Modified Non Per-Capita Conservation Program) and file those BMP's in Docket Control no later than March 1, 2009 for Commission consideration.

IT IS FURTHER ORDERED that PMWC shall be required to adopt 10 more BMP's than would be required by ADWR if PMWC was in an Active Management Area."

Make all conforming changes as necessary.
